

The track is different every time so don't take this (or any of the tabs really) as the 100% final say on what the part is. It's pretty straightforward other than the fast bit where it repeats 9 times then 5 times then 3 times. If you wanna do a cover of the album version check the stems <https://a3poify.neocities.org/> I think the bass part on there is a bit random though especially at the end.
